MEMORANDUM FOR: Director of Personnel  
Director of Security

1. Re attached letter, this fellow was quite a personnel problem as a civilian employee in Korea when I was Chief of Staff, 8th Army, from 1959-61. I have forgotten exactly what the circumstances were, but I do remember he claimed that he was approached by representatives of the Agency with a view to going under cover in private business in Korea. He had nothing to substantiate this and could prove nothing by friendly witnesses. As I recall, the problem had to do with some government payment of his travel or leave costs.
2. If we have anything at all on him, please let me know. In any event, please return the letter with some notation.

/S/

Marshall S. Carter  
Lieutenant General, USA  
Deputy Director
